WORK EXPERIENCE

Full Stack Developer Intern   **Aug 2021 - Sep 2021**
RCS Technology   *Bangalore,India*

- Worked as an Intern in RCS Technology as a front-end and back-end where I learned and developed web development using Python and Django.

Front End Developer Intern   **Jul 2020 - Aug 2020**
Technophile BUD   *Bangalore,India*

- Learned about HTML, CSS, jQuery, and JavaScript to enhance functionality and user experience on web pages. Using best practices developed and maintained websites to ensure that they are functioning properly.

PROJECT

RFID Based Health Monitoring System using IOT

- The project aims at creating a Hotel Management System which can be used by Hotel staff and Customers, which includes the following features: 1. The admin can advise/publish the availability of rooms in different hotels. 2. customers can check for the availability of a room in the required hotel and be able to book for a particular date.

Messaging Application

- The objective of this project is to provide real-time bidirectional event-based communication. It features: 1. One-to-One communication. 2. Broadcast of a message.

ACHIEVEMENTS

- Secured 2nd rank in college hackathon of topic IDEATHON-2020 where the objective was to create a dynamic web page to help hospitals with the organized administration of patients.
- Attended the Google-Crowdsource program 2019. Learned about the fundamentals of programming in Python and image classification using python.
- Worked as Campus Ambassador for Progate Inc. Successfully enrolled 100+ students into numerous courses.

SKILLS

Programming   Java, Python, C, HTML, CSS, JavaScript, SQL.

Other   Linux, Github.
